

AMAZON TRAILS PERU

THE COMPLETE MANU NATIONAL PARK EXPLORER

8 DAYS - in via Manu road & out via Colorado

on fixed departures, group size: 4 – 7 persons

DAY 1: CUSCO - CLOUD FOREST - BAMBOO LODGE : Starting early from Cusco we begin our 8 hour journey by private minibus ascending to the high mountain area at 3900 m (13,000 ft). After a short stop in Ninamarca, to see the pre-Inca cemetery, and the colonial village of Paucartambo, we descend the eastern slopes of the Andes through cloud forest with lush vegetation (ferns, orchids, bromeliads etc.). We enjoy spectacular views of the Andes and can see wildlife such as our national bird: the bright red Cock of the Rocks (*Rupicola peruviana*) showing his mating dance. Brilliantly coloured Tanagers, Quetzals, Trogons and Hummingbirds can be seen and possibly the first monkeys, such as Woolly Monkeys. In the afternoon we arrive at Bamboo Lodge (900 m), where we spend the night (double rooms & private bathroom). After dinner your guide will brief you about the activities of the following day.

DAY 2: BAMBOO LODGE - ATALAYA - HUMMINGBIRD LODGE : After an early breakfast we continue with our minibus: we pass the village of Pilcopata and cross the river of the same name to get to the small port of Atalaya (550 m). On the way we stop at a local orchid garden. We also go on a walk along the road to look for monkeys and birds. From Atalaya we navigate for about 5 hours in a 15-meter motorized canoe down the Alto Madre de Dios River. Today we enjoy the changing landscape passing by the Pantiacolla mountains and have the opportunity to see wildlife along the banks of the river, such as Fasciated Tiger Herons, Skimmers, Kingfishers, Vultures, caimans and some of the 13 species of monkeys that live in Manu. In the afternoon we reach Hummingbird Lodge, where we spend the night. Evening night walk to see insects, frogs, snakes etc.

DAY 3: HUMMINGBIRD LODGE TO ALBERGUE CASA MATSIGUENKA OR AGUAJE TENTED CAMP/ MANU RIVER : Today we start early to continue our boat ride travelling into the Reserved Zone of Manu Park. We reach the mouth of the Manu River and after a stop at Limonal Park Station, where our permit is checked we travel upriver into the heart of Manu. During this boat trip the scenery and wildlife viewing along the banks of the Manu River is fabulous. White Caimans (*Caiman crocodylus*) sunning on the beaches, turtles, capybara and plenty of colourful birds may be seen. And there is always the possibility of seeing larger animals such as Tapir and Jaguar. In the afternoon we arrive at Albergue Casa Matsiguenka or Aguaje Tented Camp, where we spend three nights in double rooms (shared bathrooms & showers).

DAY 4: EXPLORING COCHA SALVADOR AND OTORONGO / MANU PARK : Early in the morning we leave for a day excursion to explore trails through virgin forest of the Reserved Zone of Manu Park. As a highlight we visit the beautiful oxbow-lake Cocha Salvador by catamaran looking for Giant River Otters (*Pteronura brasiliensis*) and to observe caimans, monkeys, hoatzins and other birds. In the afternoon we go for a walk on the trails of the opposite side of the river. We climb the 18 m observation tower overlooking Cocha Otorongo – an ideal place to observe birds. After another walk through this biodiverse forest we return to Aguaje Tented Camp or to Albergue Matsiguenka, where we spend the night and have the chance to meet the Machiguenga Indians. We go for a night walk again in the evening.

DAY 5 : EXPLORING PAKITZA PARK STATION & MANU RIVER / MANU PARK : At dawn we take the boat to travel further upriver to the remote Pakitza Park Station, located at the furthest end of the Reserved Zone. Dawn and dusk are ideal to see wildlife on the river banks, so this is a good chance to spot a jaguar. We have breakfast at Pakitza and then we head off to explore some of the trails through primary forest to look for more wildlife. In the afternoon we return to the lodge. We can visit Cocha Salvador again to observe giant otters and explore some of the trails. Overnight at Casa Matsiguenka or at Aguaje Tented Camp; optional night walk.

DAY 6 : CASA MATSIGUENKA OR AGUAJE TENTED CAMP TO MAQUISAPAYOJ LODGE & SALT LICK : At first light we start to travel about 6 hours down the Manu River. Capybaras, caimans, birds and with luck one of the big cats may be seen. We make a short stop at Boca Manu village, or Fitzcarrald, and then continue on the wider Madre de Dios River. Further downriver we reach Maquisapayoj Reserve (Place of the Black Spider Monkey”; double rooms with private bathroom), home to numerous monkey species, including the rare Tamarin Monkey and Monk Saki Monkey. After a short rest we go for a walk on the trails to look for monkeys and other animals. Later we walk to the Mammal Salt Lick, where we can spend the night on an elevated platform (with mats and mosquito nets) to observe tapirs or other mammals during the night. Your guide will help spotting the tapir with a light. If you prefer you can spend the night in double rooms at the lodge.

DAY 7: BIG MACAW CLAY LICK & BOAT TRAVEL TO DORADO OR PANTIACOLLA LODGE: At daybreak we take the boat to the big Macaw Clay Lick in Blanquillo. From a platform we have an excellent view to observe flocks of colourful macaws (*Ara chloroptera*, - macao), parrots and parakeets congregating to eat the clay, which is essential for their digestion. Looking through the spotting scope we can see all the details of the birds. Breakfast at the blind. After the spectacle we travel upriver on Rio Madre de Dios. During our boat ride we always look for animals like capybara or caimans on the shore. Arriving at Dorado Lodge or Pantiacolla Lodge we explore the trails to look for Black Spider and Red Howler Monkeys, Capuchin Monkeys and birds and with a little luck we may even spot a tapir. We spend the night at Pantiacolla Lodge or Dorado Lodge. Our guide takes us on a night walk after dinner.

DAY 8: TRAVELLING ON RIO ALTO MADRE DE DIOS TO ATALAYA & RETURN TO CUSCO: Early in the morning we have the option to visit a parrot clay lick. Afterwards we aboard our boat to travel upriver making our way back to Atalaya. During our boat ride we look for birds and other animals, like caimans and capybara on the shore. In Atalaya our minibus is waiting for us for our return trip over the Andes back to Cusco. Travelling through the cloud forest we can look for birds, monkeys,

insects and butterflies along the roadside and stop whenever we spot animals. We arrive in Cusco in the evening; transfer to your hotel.
